PERSONAL STATEMENT

A motivated, hardworking, and practically skilled individual currently undertaking Foundation Studies at the International University of East Africa (IUEA), with the ambition of pursuing a degree in Civil Engineering. I have practical experience in welding, construction assistance, and basic carpentry, together with Grade 3 Wireman training at Thika Technical Training Institute (TTI).

My technical background has helped me develop practical problem-solving abilities, teamwork, responsible tool handling, and an awareness of workplace safety.
I am eager to contribute to community development initiatives, humanitarian projects, and organizations working to improve people's lives. I am willing to learn from experienced professionals, take responsibility for assigned duties, and support technical and non-technical activities appropriate to my skills.
.

WORK EXPERIENCE

Alaska Health Project, South Sudan
Duration: 3 Years

- Gained practical experience assisting with general construction activities.
- Assisted with preparing construction materials and maintaining an organised work area.
- Supported construction tasks and worked alongside experienced construction workers.
- Developed an understanding of construction tools, materials, and basic site procedures.
- Demonstrated teamwork, reliability, and a willingness to learn new construction techniques.

3. Carpentry Trainee

Alaska Health Project, South Sudan
Duration: 3 Years

- Gained practical experience in basic carpentry and woodworking activities.
- Assisted with measuring, cutting, and preparing timber for construction-related tasks.
- Learned to handle carpentry tools and materials appropriately.
- Assisted with basic woodwork tasks under supervision.
- Developed attention to detail, practical problem-solving, and manual skills.

4. Grade 3 Wireman Training

Thika Technical Institute, Kenya
Duration: 3 Months

- Completed three months of training in Grade 3 Wireman studies.
- Developed foundational knowledge of electrical wiring and installation practices.
- Learned about electrical tools, wiring materials, and basic electrical safety procedures.
- Gained exposure to electrical installation techniques and safe handling of electrical equipment.
- Developed an understanding of the importance of following electrical safety requirements and technical instructions.

EDUCATION

- **International University of East Africa (IUEA)**
  Currently pursuing Foundation Studies (2026–Present) in preparation for further university education.
- **Darling Wisdom Academic**
  Completed secondary education from 2020 to 2024 and was awarded a Certificate of Secondary Education.
- **Comboni Primary School**
  Completed primary education and was awarded a Primary Leaving Certificate.

KEY SKILLS

- Welding and Metal Fabrication
- Construction Assistance
- Basic Carpentry and Woodworking
- Electrical Wiring Fundamentals
- Handling of Tools and Equipment
- Measuring and Material Preparation
- Workplace Health and Safety Awareness
- Teamwork and Collaboration
- Problem-Solving
- Time Management
- Communication Skills
- Attention to Detail
- Adaptability and Willingness to Learn
- Following Technical Instructions
